ANKIROS2026

ONCE AGAIN, THE HEART OF THE METALLURGY WORLD WILL BEAT IN ISTANBUL!

Taking place at the Istanbul Expo Center from October 22 - 24, 2026, ANKIROS 2026 - International Iron-Steel, Foundry, Non-Ferrous Metallurgy Technologies Trade Fair is set to be Eurasia's most comprehensive and prestigious industrial gathering.

Organized by HM Ankiros Fuarcılık, this global platform brings together all stakeholders of the iron-steel, foundry, non-ferrous metals and metallurgical technologies industries under one roof, creating opportunities for innovation, technology transfer, and international partnerships.

EXHIBITOR BENEFITS

Boost your industry visibility by exhibiting at ANKIROS 2026:

- ✔ One-on-one meetings with international procurement delegations
- ✔ Opportunities to enter new markets and establish distributorships
- ✔ Perfect stage for product and technology launches
- ✔ Strong brand exposure through impactful presentations
- ✔ Direct interaction with top industry professionals
- ✔ Broad promotional reach through media and digital platforms

ANKIROS 2026 offers you the chance to introduce your company not just to the sector, but to the world.

VISITOR PROFILE

The exhibition welcomes a highly qualified and target-oriented visitor profile:

- Iron and steel manufacturers and processors
- Foundry managers, engineers, and technicians
- Representatives from automotive, defense, and white goods industries
- Suppliers of industrial furnaces, machinery, and equipment
- Universities, technoparks, and R&D centers
- Purchasing managers, investors, and decision-makers
- International trade delegations

PAST EVENT STATISTICS (ANKIROS 2024)

- 1,137 exhibiting companies | from 42 countries
  716 international exhibitors | 421 national exhibitors
- In 70,000 m^2 exhibition space | 31.719 net stand area
- 21,069 professional visitors | from 77 countries
  4.306 international visitors | 16.763 national visitors
- In 1.500 m^2 event area, technical seminars and special sessions in 6 congress rooms
- Productive Business Meetings in B2B area

VISITOR SURVEY RESULTS

According to the visitor survey conducted during the fair, 98% of **21.069 visitors** were satisfied with their experience, considering the number of exhibiting companies and the variety of products showcased. Additionally, 97% of the visitors indicated that they plan to attend the fair again in the future.

ANKIROS 2026 is not only a trade show, but also a business development platform where professional connections are made.

CONCURRENT CONGRESSES

The Future of the Metallurgy Industry is Being Rewritten in Istanbul in 2026.

IMMC 2026 — 23rd International Metallurgy and Materials Congress

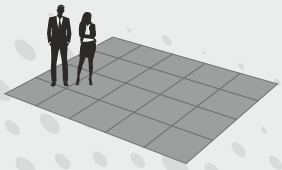

Held concurrently and at the same venue as the Ankiros Fair, the **23rd International Metallurgy and Materials Congress**, organized by METEM – the Training Center of the Chamber of Metallurgical and Materials Engineers (TMMOB), will bring together industry professionals for three days through simultaneous sessions. IMMC offers an excellent platform for sharing and developing ideas, as well as establishing collaborations between industry and academia.

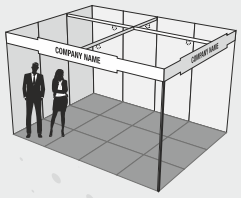

The World Foundry Congress Comes to Istanbul Alongside ANKIROS 2026!

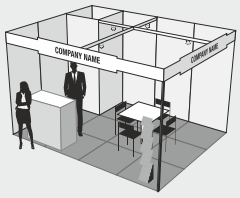

WFC 2026 — 76th Centenary World Foundry Congress | Istanbul, 18-24 October 2026

The 76th edition of the World Foundry Congress, one of the most prestigious international events of the foundry industry, organized every two years under the umbrella of the World Foundry Foundry Association (WFO), will be held in Istanbul on October 18-24, 2026, hosted by the Turkish Foundry Association (TÜDÖKSAD). The congress, which will be held in this special year symbolizing the centennial history of the World Foundry Association (WFO), will offer a unique platform for scientific presentations, technical sessions, industry panels and international collaborations. Aiming to bring together all global stakeholders, the congress will create an inspiring atmosphere by meeting the historical and cultural richness of Istanbul.

Be a part of this grand gathering!

Raw Space	Standard Stand	Furnished
295.- €/m² + VAT	335.- €/m² + VAT	365.- €/m² + VAT
Minimum 20m²	Minimum 12m²	Minimum 12m²
	Modular construction with floor covering	
	Instalment of electricity	
	Spotlights (100W/3m²)	
	Fascia board (20 Characters)	
		1x1 *Lockable* room
		1 Table
		4 Chairs
		1 Info desk
		1 Brochure rack
		1 Waste bin

Registration Fee: 200.- € / Exhibitor + VAT

- Publishing company information in the fair catalogue
- Unlimited visitor information

FOUNDRY TECHNOLOGIES

As the beating heart of casting and melting technologies, ANKIROS serves as the showcase for technologies in the metallurgy industry. Covering the entire range of foundry processes—from foundry planning, melting furnaces, molding systems, core-making technologies, sand preparation, and reclamation—ANKIROS brings together solutions that are shaping the future of the global foundry industry.

ANKIROS is an essential meeting point for professionals committed to achieving excellence and innovation at every stage of the production chain.

Thermprocess Pavilion

Within ANKIROS, the Thermprocess Pavilion stands as a global reference point for industrial furnace technologies, heat treatment systems, and energy efficiency solutions. Covering all stages of thermal processes for the iron, steel, non-ferrous metals, ceramics, and glass industries, the pavilion focuses on key applications such as melting, annealing, hardening, sintering, and surface treatment.

Bringing together global experts in energy management, automation, and emission control, it serves as a unique platform shaping the future of thermal engineering.

TURKCAST - FOUNDRY PRODUCTS

Representing the product-oriented face of the global foundry industry, TURKCAST opens the doors of Türkiye's leading foundries—particularly members of TÜDÖKSAD (Turkish Foundry Association)—to the world. Covering a wide range of products from iron and non-ferrous metal castings to high-precision components, the TURKCAST Special Section showcases casting solutions for industries such as automotive, aerospace, energy, marine, and mechanical engineering.

With its product variety, growing production volume, technological advancement, and experience, the Turkish foundry industry provides Türkiye with a strong competitive edge in casting production and exports—making Turkish foundries among the world's leading suppliers.

STEEL & METALLURGY

As one of Türkiye's most vital export industries, the steel sector comes together at ANKIROS with the support of the Turkish Steel Producers Association (TÇÜD) within the STEEL & METALLURGY Special Section. This area gathers the most advanced solutions in iron and steel production. Featuring innovative equipment and systems used in raw material preparation, iron and steel production, and rolling technologies, it defines the future of sustainable steelmaking.

With its focus on carbon reduction, energy efficiency, and digital transformation, the STEEL & METALLURGY Special Section drives the modernization of industrial plants.
