Digital Thermometer
Model: PT-6

Features:

◇LED display, clear, direct, and anti light interference

◇Embedded design, easy to install

◇Broad measurement range and high accuracy

Parameters:

◇Temperature measuring range options: -40~110°C(standard) ; 0~150°C; -50~300°C

◇Resolution: 0.1°C

◇Accuracy: ±1°C

◇Power options: 220VAC±10% (standard) ; 110VAC±10%, 12VAC/DC,24VAC±10%

◇Input: 1 NTC sensor

◇Sensor wire: approx. 2m (standard)

◇Consumption: ⩽3W

◇Panel size: approx. 64×33(mm)

◇Cut-out size: approx. 62.5×27(mm)

◇Net weight: approx. 46g

◇Package weight: approx. 50g

◇Ambient requirements: temperature: -10~60°C; humidity: 20~85% (No condensate)
